New Listings

In 2015, Airbnb reached the highest number of new listings. 2016 and 2017 saw a restraint also due to a tightening in local regulation. Despite this, Airbnb became profitable in the second half of 2016 and 2017 marked the first full year of generating income. From 2018, there was a new growth stopped in 2019 by the COVID-19 pandemic.

Global Airbnb Performance Dashboard

Market Share by City

Paris, NYC and Sydney account for almost half of the total listings and 48% of total reviews.

Paris is the city with the most listings and reviews. A possible driver is the prices for hotel rooms being twice as much as Airbnb

Avg Price

Ratings

Mexico City and Rio are the overall best-rated cities, HK and Istanbul the worst ones. Cleanliness and value for money ratio are the two metrics generally scoring the lowest.

Review Frequency

Reviews provide information about the customer order frequency. Most, of the customers wrote a review only once .

98.8% of customers did so 3 times or less.

One customer wrote 283 reviews : last two on 13-Oct-20, of two listings in Bangkok. (Data error or globe - trotter?)

Seasonality

Paris and Rome dominate review share from April to August, reflecting peak European Summer travel.

New York saw an increase in November and December during the holiday season.

Trust

Over two-third of Airbnb hosts are fully verified, while nearly all hosts provide at least one trust signal, keeping unverified and anonymous profiles to a minimum.
